DOMEKT

Residential
ventilation units
with heat recovery

DOMEKT features

Wide range for different situations

- 30 different models of Domekt units to fit any residential or small commercial premises.
- Airflows ranging from 50 m³/h to 1000 m³/h.
- Different heat exchangers available: rotary, counter flow and two types of enthalpy exchangers.
- Various modifications with vertical or horizontal duct connections, low-profile or supply-only units.

Insulated, reliable and durable casing

- Plastic duct connections with special insulation rings simplify the connection of ducts, ensure better tightness and reduce thermal losses.
- The construction of the casing with cold barriers minimizes the risk of condensation.
- Airtight doors. Locks without thermal bridges.
- The mineral wool filling is non-flammable and provides good heat and noise insulation.

Cost reducing solutions

- Modern energy-efficient EC fans.
- Sorption-enthalpy rotary or Diffusion-enthalpy counterflow heat exchangers – efficiently recover humidity in winter and repel moisture in summer.
- Low resistance and high filtration filters.
- Over 20 built-in energy-saving functions to optimize the unit's operation.

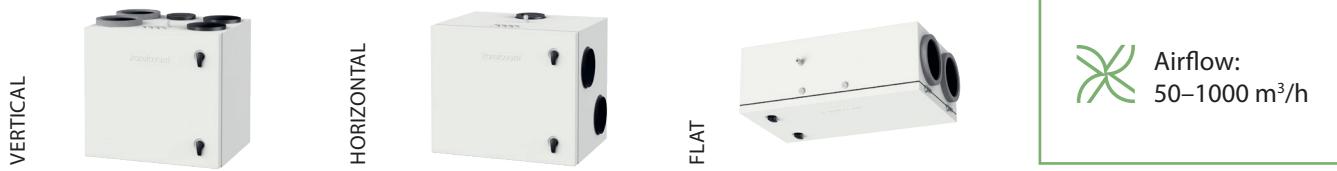

Intuitive user interface

- Two models of control panels available: C6.1 with colored touch-sensitive screen or C6.2 with simple touch buttons.
- Temperature and humidity sensors integrated into the control panel allow monitoring and control of air parameters.
- Simple and intuitive indoor climate adjustments from a smartphone, using "Komfovent control" app.
- Cloud-based web interface providing the ability to control ventilation from the internet.

Range review

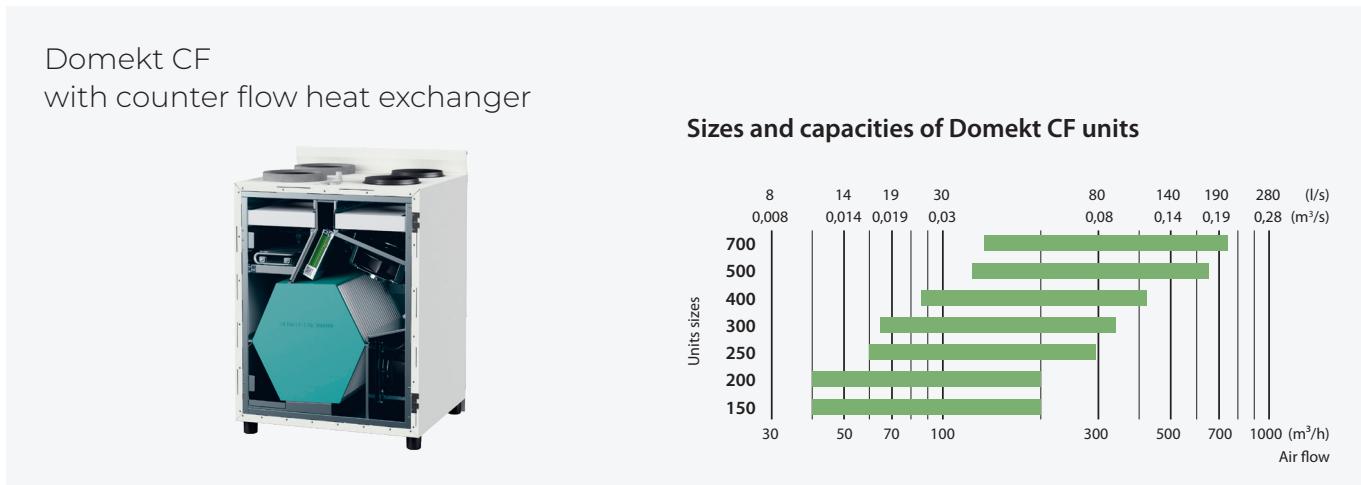

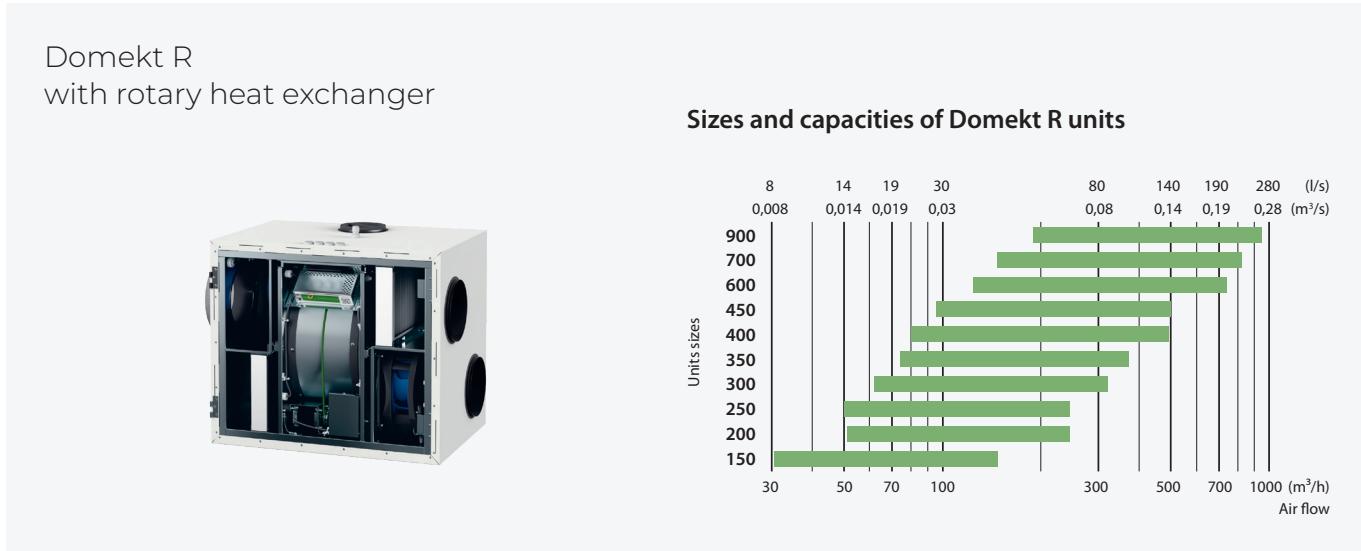

Residential ventilation units with heat recovery. Depending on the individual requirement, units can be equipped with a rotary or counterflow plate heat exchanger. Vertical, horizontal and flat units are available with a wide range of modifications.

TYPES OF THE UNITS

Airflow:
50–1000 m³/h

TYPES OF THE HEAT EXCHANGERS

“Komfovent Control” app

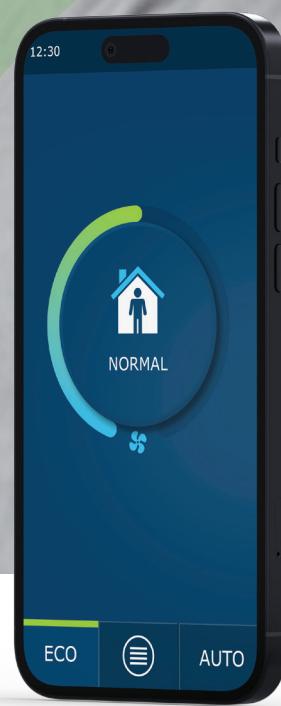

Your home indoor climate
in your hand with
KOMFOVENT CONTROL app

Download on the
App Store

ANDROID APP ON
Google play

HUAWEI
EXPLORE IT ON AppGallery

Easily manage your home's indoor climate with "Komfovent Control". This intuitive mobile app offers extensive control options, allowing you to quickly and conveniently adjust ventilation settings wherever you are.

"Komfovent Control" – home comfort at your fingertips.

Smart control systems C6M, C8 for DOMEKT units

For both: beginners and advanced users

A user-friendly interface enables intuitive navigation and control of the unit. The core philosophy behind the design of C6M, C8 – the ventilation unit would operate properly without constant adjustments from the user. Different ventilation modes are optimized for the user's daily needs. Automatic air quality control selects the most appropriate mode and ensures the comfort conditions in the room.

Advanced users can control the unit's operation according to their needs, many settings and control possibilities are provided as well:

- Air flow control: CAV / VAV / DCV*.
- Intensity control by air quality, CO₂, humidity level.

"Komfovent Control" app

The cloud-based application is designed to control residential ventilation units with C6M, C8 control system. A user-friendly interface ensures intuitive control. As the application fully replicates control panel functions, you will have access to all monitoring and control possibilities available in the control panel.

The application is available on Google Play, App Store and Huawei AppGallery.

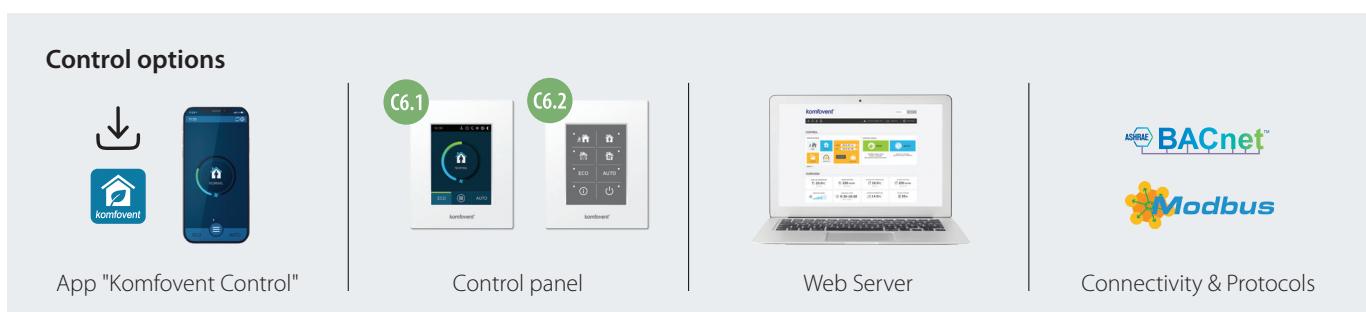

Operating modes

- 8 preset modes.
- Intelligent energy saving algorithms.
- Automatic air quality control with optional AQ sensor.
- Extensive weekly schedule.

Energy counters *

- Real-time energy consumption indicator.
- Possibility of observing the running costs of the ventilation unit.
- Heat recovery counter.

* Except C8 control system.

DOMEKT selection software

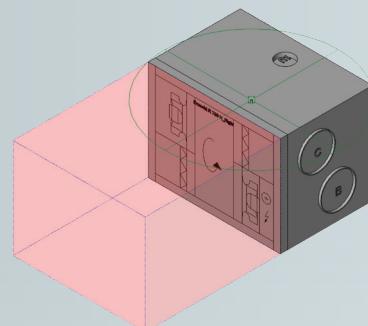

- For DOMEKT units with a capacity from 50 to 1000 m³/h.
- Parameters are calculated for specific climate and operating conditions.
- Selection of unit's accessories.
- Comparison of the units.
- DOMEKT 3D REVIT models are available in the selection software.

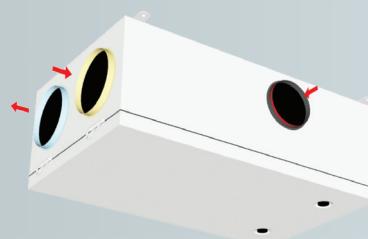

Komfovent DOMEKT + REVIT

Easy unit's integration into building information modeling – 3D REVIT models of DOMEKT units are available in the REVIT add-in KOMFOVENT HUB library.

Komfovent Domekt + MagiCAD

3D MagiCAD models of Domekt units are available in the MagiCAD Cloud library.
